*Where you can get these prawns !!*

Sanitized Copy Approved for Release 2010/06/24 : CIA-RDP80T00246A046800090001-3

#### DESCRIPTI NS

Fresh, headless, properly trimmed, neatly arranged, normal odor, brilliant colour, body of prawn remarkably tough in quality, about 10—15 pieces per lb.

#### PACKING

About 0.55 kilo average weight per carton, 20 cartons one cardboard case.

#### GRILLED PRAWNS

Remove the heads and insert a thin wire into the prawns from the rear and down to the opposite. Let the prawns be broiled by the power of dipping them in turn and repeatedly in oil a little bit of Chinese sauce and grape wine or lemon juice. Do not stop until they are golden brown and then serve the food with a dressing of fresh tomato and crisp slices of potato well fried.

#### PRAWNS A LA POLSKY

Prepared in the same way as Fried Prawns Natural. Let the Prawns be fried in oil and dressed with a preparation of sauce made of a due mixture of acid, flour, milk, salt and vegetables (i.e. monosodium glutamate).

*Excellent Ways  
by first class qualified chef*

#### FRIED PRAWNS NATURAL

Pieces of prawns used, peeled and cut in the same way as the Fried Prawns. Let the prawns be covered up with a preparation of paste, which is made of 1 hen egg, a white of flour and yolk powder and evenly dissolved with water. Fry the prawns in hot oil and serve with a dressing of salad etc.

#### FRIED PRAWNS

Take 3 or 4 pieces of "Swagall" but with tails attached. Soak prawns are cut open along the back and the dirt removed, give the flesh a second and scald with the fish bit of pepper and salt. Then fry the prawns each take a coating of flour which is to be first dipped in a solution of flour, beaten whole hen eggs and more covered up with a layer of flour crumbs. When this is done, fry the prawns in hot oil and serve them with a dressing of vegetables.

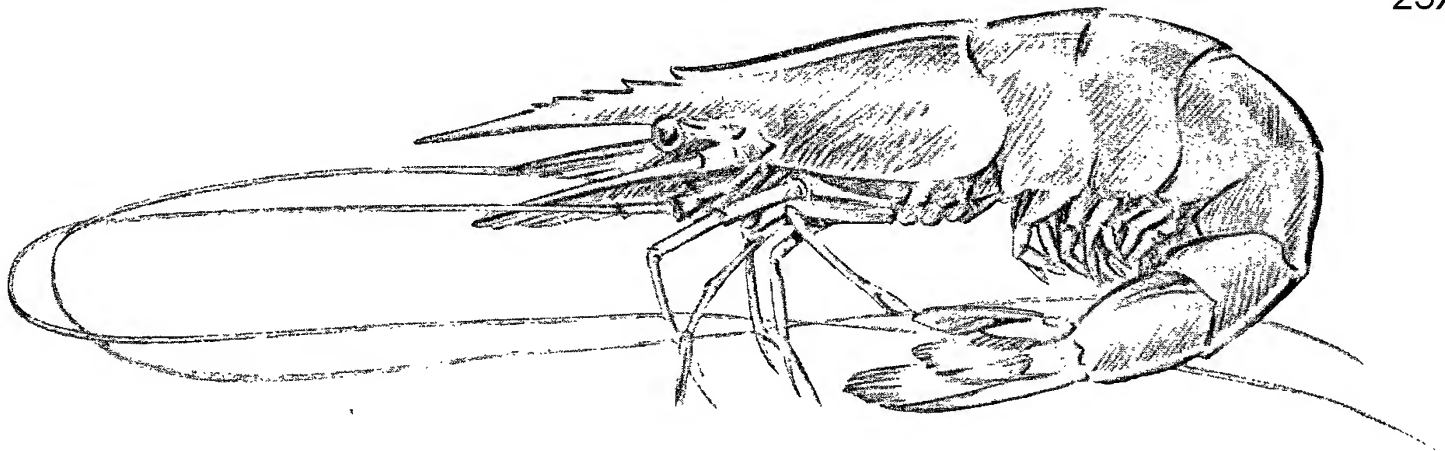

There is no denying that prawns are one of the most delicious foodstuffs, the wonderful taste and flavour of which no gourmet can afford to spare.

Prawns are produced from the gulf of Pohai in the course of their annual migration to Taku Bar, Tientsin, which takes place in the seasons of Autumn and Spring. The quality of prawns produced in Spring is remarkably delicate and that in Autumn lusciously fat. Prawns have become one of the most favorite foods for the Chinese people as well as the other peoples all over the world.

Now considerable quantities of Quick Frozen Prawns have been continually shipped abroad with the result that not a few people have a chance to purchase and partake of this kind of Chinese excellent fare from their own markets over there.

# **FROZEN PEKING CRAMMED DUCK**

北京填鴨

## *Peking Crammed Duck*

is a well-known Chinese speciality of long standing. It has enjoyed a world-wide popularity since the later part of the 19th century.

Unlike other poultry, it has its own characteristics of fast-growing. The young duck, with clean and white feather, soon gets quickly developed into a weight of about two kilograms 60 days after its incubation. After that, the so-called "Forced Feeding", a traditional method in use for more than 200 years, is applied. Having been fed continuously by this method for about 20 days, it becomes fat, tender and fully developed with a weight of about three kilograms.

The duck can be cooked in many ways. It can be steamed, fried or roasted. Its meat is very delicious. It is served on special occasions, banquets and family parties.

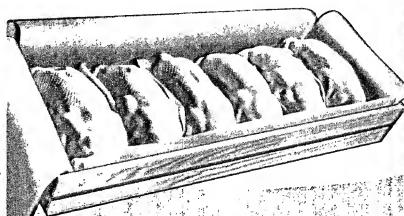

The duck has a high nutritive value, consisting of fat, protein, vitamins and mineral substances which are all necessary for the up-keeping of good health.

Our Peking Ducks are carefully selected and packed under strict supervision before being exported.

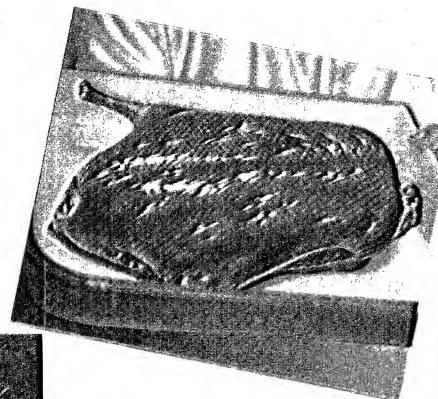

### Specification & Packing

Removal of feathers, with entrails on, each duck weighing not less than 2 kilograms. 6 pieces in one wooden case.

### Method of Preparing the famous Roasted Peking Duck

First remove the entrails, add water inside the body, then sew it with thread, air into it until it swells, then rub molasses over it.

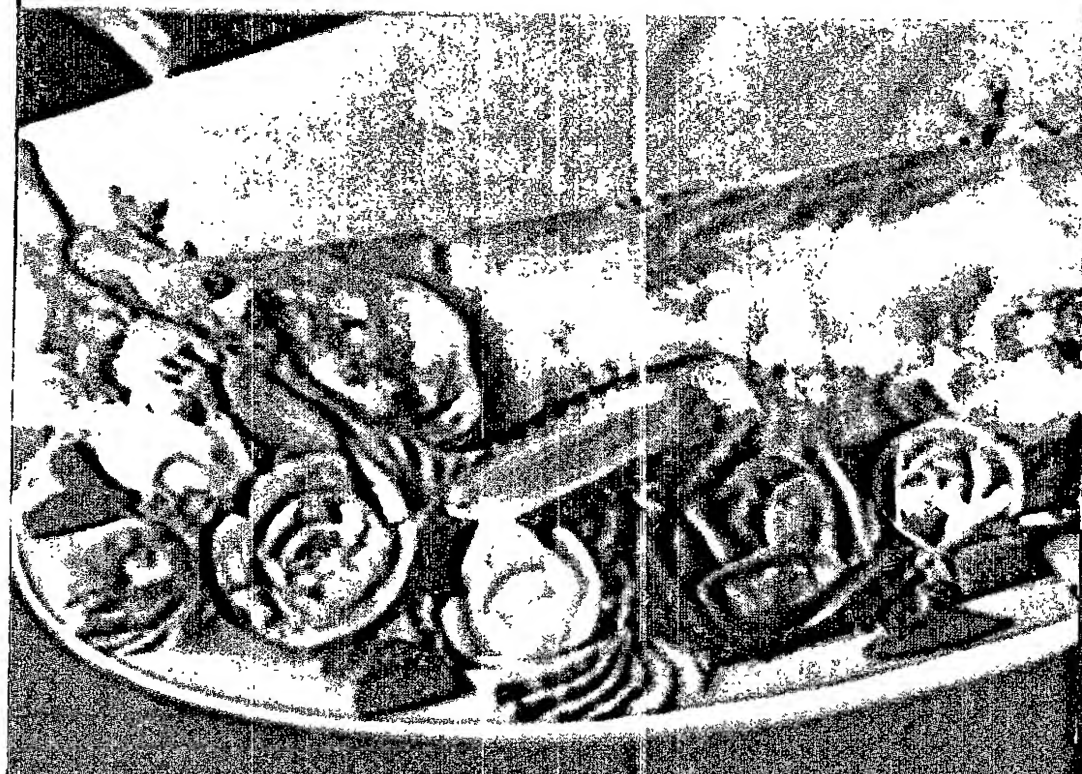

When all this is done, roast it on all sides except the chest in a brick stove at a temperature of 250 °C. until its colour becomes perfectly brown. It requires about 30 minutes to complete the whole process. The duck is then cut into thin slices, well seasoned with flour jam, with or without Scallion and radish before being put into the Chinese pancake.

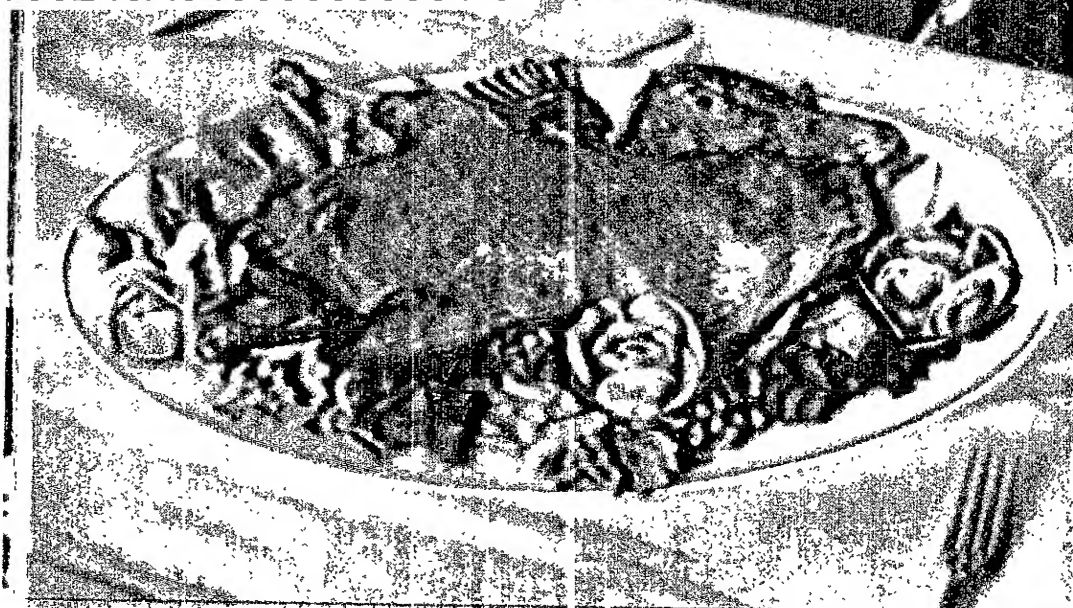

### Boneless Duck

Remove all bones from the duck, leaving its skin intact. Then chop the meat together with pork or beef, make it well seasoned with salt, pepper, eggs, cream and about 5-10 grams of Monosodium Glutamate. After this being done, put the whole meat into the skin and sew it with thread, then keep on roasting for 30 minutes.

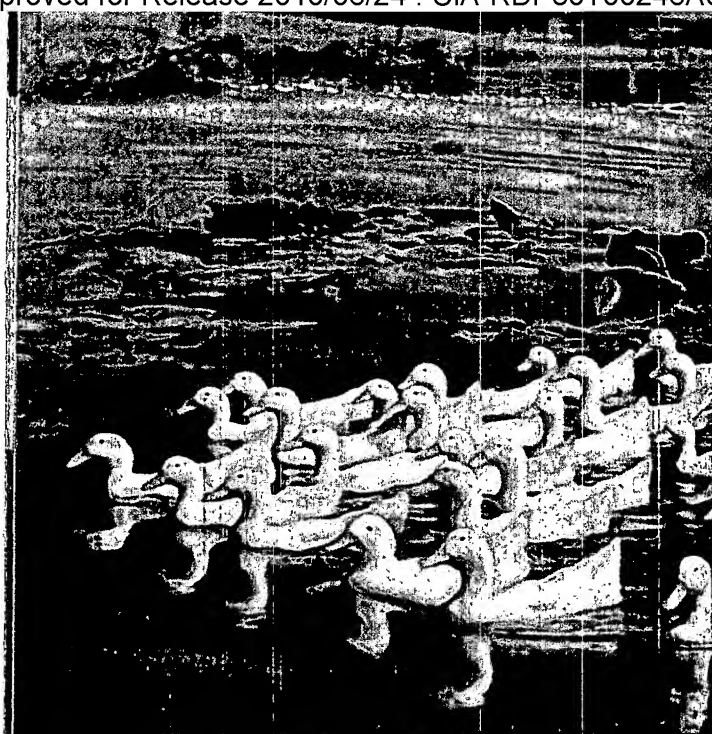

### The Roasted Peking Duck (Western Dressing)

Remove entrails from the duck. Then put the duck into an iron pan, add pepper, salt, carrot, onion, celery and butter with a little water so as to increase its flavour. It takes about an hour to finish this process.

# WILD DUCK

PRODUCT OF CHINA

# Wild Duck

Chinese Wild Ducks are well known to our overseas consumers. They are mainly available in spring as well as in winter.

The outward appearance of wild ducks is somewhat similar to that of the domestic. The only difference lies in the fact that wild ducks have a smaller size and pretty feather.

The following are the four different sizes of the ducks of the same family known as wild ducks:

Mallard,  
Pintail,  
Lake Teal,  
Small Teal.

Of these, the Mallard is the biggest and the Small Teal the smallest in size.

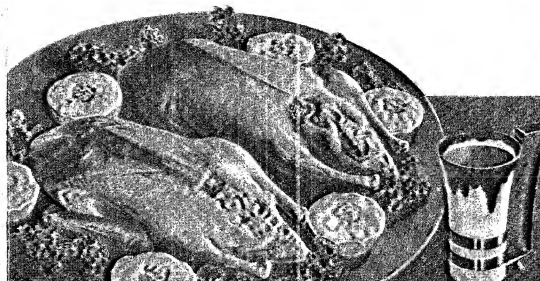

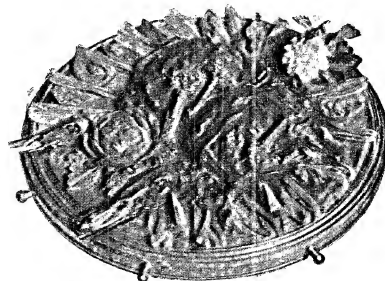

Chinese Wild Ducks may be served in numerous ways: viz., roasting, braising, steaming, etc. They are delicious, having such nutritive values as fat, protein, vitamins and inorganic salt -- all essential to human health.

Chinese Wild Ducks are all well frozen and carefully selected for export so that they may retain their original freshness and nutritive values.

野鴨是主要野禽之一，其形狀與家鴨相似，惟身體較小，羽毛比較華麗，其種類較多，主要可分為大紅腿、尖尾、藍雀、小八鴨四種，其中以大紅腿為最大，小八鴨為最小。

牠的肉質鮮美而且豐滿，具有獨特的野味，營養價值也很高，含有脂肪、蛋白質、鐵質、無機鹽、維生素等甚多，為人們所喜食。

中國野生野鴨，每到冬季兩季為生產旺季，為了供應海外人士食用，採用冷藏方法出口，野鴨經過冷藏後，對其原有味道及營養價值毫無損壞。

## BRAISED WILD DUCKS

Have the bird drawn and washed, remove the bones and feather thereof. Stuff with shredded mushroom and bamboo shoot seasoned with Worcestershire sauce, pepper, flour, wine, Vel-Su, etc. for frying. Then, braise with Worcestershire sauce, wine and sugar for about 2 hours.

**紅野鴨：**將野鴨去毛，去內臟，洗淨後，脫去全部骨頭，將冬菇、玉蘭片切成末用醬油、古月粉、麵粉、酒、味素少許攪拌均勻，裝入野鴨肚內，用油炸熟，煎後再用醬油、酒、糖，調味去其酸味，燜約二小時熟爛即成。

## Roasted Wild Ducks with Orange Juice

First have the bird drawn and washed, and remove the feather thereof. Soak in cold water for four hours with vinegar, spicy leaves, onion and carrot added then stuff with same together with lard and celery, for roasting. Sprinkle some orange juice and its own juice on the roasted duck and serve with vegetables, shredded orange peel, cauliflower, corn flour, etc.

**橙子汁燜野鴨：**先將野鴨去毛，去內臟，洗淨後用滾水浸泡四小時（水內放些醋、蔥葉、胡蘿蔔、蔥頭），泡好後再加上些胡蘿蔔、蔥葉、芹菜、黃油放入烤爐內，烤熟後，再用厚皮泡野鴨的汁加上一個檸檬子的汁，將橙皮切成細絲及玉米粉少許撒在，再加上些蔬菜與果花即可。
